INDEX TO VOLUME 81

Abbie, A. A. Headform and human evolution, 233
— The Principles of Anatomy, an Introduction to Human Biology. Book notice, 121
Abou-el-Naga, I. *See* Tarkhan, A. A., joint authors, 23
Absence of cell multiplication during degeneration of non-myelinated nerves. By J. Joseph, 135
Acids and alkalis; observations on muscle-fibre structure: the swelling of muscle fibres by. By Robert Barer, 259
Adrenal cortex, variations in the distribution of lipoids in, of the albino rat. By R. G. Harrison and A. J. Cain, 286
Adrenal gland, endings produced by somatic nerve fibres growing into the. By D. H. Lodwick Evans, 225
Aitken, J. T., Sharman, M. and Young, J. Z. Maturation of regenerating nerve fibres with various peripheral connexions, 1
Alkaline phosphatase, the distribution of, in the pregnant uterus of the rat. By J. J. Pritchard, 352
Anatomical Eponyms. By Jessie Dobson. Book notice, 121
Anatomie Comparée du Cerveau. By M. Friant. Book notice, 334
Anatomy of the Bronchial Tree. By R. C. Brock. Book notice, 121
Anatomy and Physiology for Students of Physiotherapy, Occupational Therapy and Gymnastics. By C. F. V. Smout and R. J. S. McDowall. Book notice, 334
Australopithecinae, the fossil, observations on the anatomy of. By W. E. Le Gros Clark, 300

Barcroft, Joseph. Researches on Prenatal Life. Book notice, 200
Barer, Robert. Observations on muscle-fibre structure. The swelling of muscle fibres by acids and alkalis, 259
Baxter, J. S. *See* Yoffey, J. M., joint authors, 335
Birefringent crystals, the formation of, in the suprarenal cortex. By J. M. Yoffey and J. S. Baxter, 335
Blood vessels of the rabbit's pituitary gland, and the significance of the pars and zona tuberalis. By G. W. Harris, 343
Book Notices:
  Anatomical Eponyms. By Jessie Dobson, 121
  Anatomie Comparée du Cerveau. By M. Friant, 334
  The Anatomy of the Bronchial Tree. By R. C. Brock, 121
  Anatomy and Physiology for Students of Physiotherapy, Occupational Therapy and Gymnastics. By C. F. V. Smout and R. J. S. McDowall, 334
  The Child's Lung. By Stefan Engel, 367
  The Circulation in the Foetus. By Kenneth J. Franklin, 122
  Ellis's Anatomy. By J. A. Keen, 367
  Gray's Anatomy, Descriptive and Applied. Edited by T. B. Johnston and J. Whillis, 121
  Human Genetics. By R. Ruggles Gates, 200
  Illustrations of Regional Anatomy. By E. B. Jamieson, 367
  The Integrative Action of the Nervous System. By Charles Sherrington, 334
  Practical Anatomy. By W. E. Le Gros Clark, 121
  A Prelude to Modern Science (The *Tabulae Anatomicae Sex* of Vesalius). By Charles Singer and C. Rabin, 200
  The Principles of Anatomy, an Introduction to Human Biology. By A. A. Abbie, 121
  Research in Holland: Experimental Embryology. By M. W. Woerdeman and Chr. P. Raven, 334
  Researches on Prenatal Life. By Joseph Barcroft, 200
  A Synopsis of Surgical Anatomy. By Alexander Lee McGregor, 122
'Bouton' method: the primary optic centres of the rat. An experimental study by the. By W. J. H. Nauta and J. J. Van Straaten, 127
Brock, R. C. The Anatomy of the Bronchial Tree. Book notice, 121

Cain, A. J. *See* Harrison, R. G., joint authors, 286
Cardiac muscle, the regenerative capacity of. By R. G. Harrison, 365
Chang, Hsiang-Tung and Ruch, Theodore C. Organization of the dorsal columns of the spinal cord and their nuclei in the spider monkey, 140
— — Topographical distribution of spino-thalamic fibres in the thalamus of the spider monkey, 150
Circulation in the Foetus. By Kenneth J. Franklin. Book notice, 122
Clark, W. E. Le Gros. Observations on the anatomy of the fossil Australopithecinae, 300
— Practical Anatomy. Book notice, 121
Clark, W. E. Le Gros and Wajda, H. S. The growth and maturation of regenerating striated muscle fibres, 56
Conducting tissue of the human heart, development of. By E. W. Walls, 93
Cortex, adrenal; variations in the distribution of lipoids in the, of the albino rat. By R. G. Harrison and A. J. Cain, 286
Cortex, suprarenal; the formation of birefringent crystals in the. By J. M. Yoffey and J. S. Baxter, 335
Cracking in the metacarpo-phalangeal joint. By J. B. Roston and R. Wheeler Haines, 165
Cyclical changes in the islets of Langerhans in the rat pancreas. By H. Hughes, 82

Dermis and epidermis, observations on the elastic tissue of the skin with a note on the reticular layer at the junction of the. By John C. Dick, 201
Development of joints. By R. Wheeler Haines, 33
Development of the specialized conducting tissue of the human heart. By E. W. Walls, 93
Dick, John C. Observations on the elastic tissue of the skin with a note on the reticular layer at the junction of the dermis and epidermis, 201
Distribution of alkaline phosphatase in the pregnant uterus of the rat. By J. J. Pritchard, 352
Dobson, Jessie. Anatomical Eponyms. Book notice, 121

Endings produced by somatic nerve fibres growing into the adrenal gland. By D. H. Lodwick Evans, 225
Epidermis, the histogenesis of the, in the rat and mouse. By Jean Hanson, 174
Epidermis, observations on the elastic tissue of the skin with a note on the reticular layer at the junction of the dermis and. By John C. Dick, 201
Evans, D. H. Lodwick. Endings produced by somatic nerve fibres growing into the adrenal gland, 225
Evolution, human, headform and. By A. A. Abbie, 233
Experimental foetal death in the rat: histological changes in the membranes. By J. J. Pritchard and A. St G. Huggett, 212

Foetal death in the rat, experimental: histological changes in the membranes. By J. J. Pritchard and A. St G. Huggett, 212
Formation of birefringent crystals in the suprarenal cortex. By J. M. Yoffey and J. S. Baxter, 335
Fossil Australopithecinae, observations on the anatomy of. By W. E. Le Gros Clark, 300
Foxon, G. E. H. and Walls, E. W. The radiographic demonstration of the mode of action of the heart of the frog, 111
Franklin, Kenneth J. The Circulation in the Foetus. Book notice, 122
Friant, M. Anatomie Comparée du Cerveau. Book notice, 334
Frog heart: radiographic demonstration of the mode of action of. By G. E. H. Foxon and E. W. Walls, 111

Gates, R. Ruggles. Human Genetics. Book notice, 200
Gladstone, Reginald John. In Memoriam, 198
Gland, adrenal; endings produced by somatic nerve fibres growing into the. By D. H. Lodwick Evans, 225
Gland, pituitary, the blood vessels of the rabbit's, and the significance of the pars and the zona tuberalis. By G. W. Harris, 343
Gland, prostate, of *Herpestes edwardsii edwardsii*. By M. A. H. Siddiqi, 123
Gray's Anatomy, Descriptive and Applied. Edited by T. B. Johnston and J. Whillis. Book notice, 121
Growth and maturation of regenerating striated muscle fibres. By W. E. Le Gros Clark and H. S. Wajda, 56

Haines, R. Wheeler. The development of joints, 33
— *See* Roston, J. B., joint authors, 165
Hanson, Jean. The histogenesis of the epidermis in the rat and mouse, 174
Harris, G. W. The blood vessels of the rabbit's pituitary gland and the significance of the pars and zona tuberalis, 343
Harrison, R. G. The regenerative capacity of cardiac muscle, 365
Harrison, R. G. and Cain, A. J. Variations in the distribution of lipoids in the adrenal cortex of the albino rat, 286
Headform and human evolution. By A. A. Abbie, 233
Heart of the frog: radiographic demonstration of the mode of action of. By G. E. H. Foxon and E. W. Walls, 111
Heart, human, development of the specialized conducting tissue of. By E. W. Walls, 93
Herpestes edwardsii edwardsii, the prostate gland of. By M. A. H. Siddiqi, 123
Histogenesis of the epidermis in the rat and mouse. By Jean Hanson, 174
Huggett, A. St G. *See* Pritchard, J. J., joint authors, 212
Hughes, H. Cyclical changes in the islets of Langerhans in the rat pancreas, 82
Human Genetics. By R. Ruggles Gates. Book notice, 200
Hyoid bone, larynx and tongue: respiratory displacement of. By A. G. Hitchinson and J. M. Yoffey, 118

In Memoriam. Reginald John Gladstone, 198
Integrative Action of the Nervous System. By Charles Sherrington. Book notice, 334
Islets of Langerhans, cyclical changes in, in rat pancreas. By H. Hughes, 82

Johnston, T. B. and Whillis, J., joint editors. Gray's Anatomy, Descriptive and Applied. Book notice, 121
Joint, metacarpo-phalangeal, cracking in the. By J. B. Roston and R. Wheeler Haines, 165
Joints, development of. By R. Wheeler Haines, 33
Joseph, J. Absence of cell multiplication during degeneration of non-myelinated nerves, 135

Langerhans, islets of, cyclical changes in the, in rat pancreas. By H. Hughes, 82
Larynx, hyoid bone and tongue: respiratory displacement of. By A. G. Mitchinson and J. M. Yoffey, 118
Lipoids, variations in the distribution of, in the adrenal cortex of the albino rat. By R. G. Harrison and A. J. Cain, 286

McDowall, R. J. S. *See* Smout, C. F. V., joint authors. Book notice, 334
McGregor, Alexander Lee. A Synopsis of Surgical Anatomy. Book notice, 122
Maturation of regenerating nerve fibres with various peripheral connexions. By J. T. Aitken, M. Sharman and J. Z. Young, 1
Mitchinson, A. G. and Yoffey, J. M. Respiratory displacement of larynx, hyoid bone and tongue, 118
Mouse, rat and, histogenesis of the epidermis in. By Jean Hanson, 174
Muscle, cardiac, the regenerative capacity of. By R. G. Harrison, 365
Muscle-fibre structure, observations on. The swelling of muscle fibres by acids and alkalis. By Robert Barer, 259
Muscle fibres, regenerating striated; growth and maturation of. By W. E. Le Gros Clark and H. S. Wajda, 56

Nauta, W. J. H. and Van Straaten, J. J. The primary optic centres of the rat. An experimental study by the 'Bouton' method, 127
Nerve fibres, maturation of regenerating, with various peripheral connexions. By J. T. Aitken, M. Sharman and J. Z. Young, 1
Nerve fibres, somatic; endings produced by, growing into the adrenal gland. By D. H. Lodwick Evans, 225
Nerve, hypoglossal, sensory fibres in the. By A. A. Tarkhan and I. Abou-el-Naga, 23
Nerves, non-myelinated, absence of cell multiplication during degeneration of. By J. Joseph, 135
Nervous system of the sheep, prenatal medullation of. By G. J. Romanes, 64

Observations on the elastic tissue of the skin with a note on the reticular layer at the junction of the dermis and epidermis. By John C. Dick, 201
Observations on muscle-fibre structure. The swelling of muscle fibres by acids and alkalis. By Robert Barer, 259
Optic centres, the primary, of the rat. An experimental study by the 'Bouton' method. By W. J. H. Nauta and J. J. Van Straaten, 127
Organization of the dorsal columns of the spinal cord and their nuclei in the spider monkey. By Hsiang-Tung Chang and Theodore C. Ruch, 140

Pancreas of rat, cyclical changes in the islets of Langerhans in the. By H. Hughes, 82
Pars and zona tuberalis: the blood vessels of the rabbit's pituitary gland, and the significance of the. By G. W. Harris, 343
Phosphatase, alkaline, the distribution of, in the pregnant uterus of the rat. By J. J. Pritchard, 352
Pituitary gland, the blood vessels of the rabbit's, and the significance of the pars and zona tuberalis. By G. W. Harris, 343
Practical Anatomy. By W. E. Le Gros Clark. Book notice, 121
Prelude to Modern Science. (The *Tabulae Anatomicae Sex* of Vesalius). By Charles Singer and C. Rabin. Book notice, 200
Prenatal medullation of the sheep's nervous system. By G. J. Romanes, 64
Primary optic centres of the rat. An experimental study by the 'Bouton' method. By W. J. H. Nauta and J. J. Van Straaten, 127
Principles of Anatomy, an Introduction to Human Biology. By A. A. Abbie. Book notice, 121
Pritchard, J. J. The distribution of alkaline phosphatase in the pregnant uterus of the rat, 352
Pritchard, J. J. and Huggett, A. St G. Experimental foetal death in the rat: histological changes in the membranes, 212
Proceedings of the Anatomical Society of Great Britain and Ireland, 369
Prostate gland of *Herpestes edwardsii edwardsii*. By M. A. H. Siddiqi, 123

Radiographic demonstration of the mode of action of the heart of the frog. By G. E. H. Foxon and E. W. Walls, 111
Rat, experimental foetal death in: histological changes in the membranes. By J. J. Pritchard and A. St G. Huggett, 212
Rat and mouse, histogenesis of the epidermis in. By Jean Hanson, 174
Rat pancreas, cyclical changes in the islets of Langerhans in. By H. Hughes, 82
Rat: the primary optic centres of the. An experimental study by the 'Bouton' method. By W. J. H. Nauta and J. J. Van Straaten, 127
Rat uterus, the distribution of alkaline phosphatase in the pregnant. By J. J. Pritchard, 352
Raven, Chr. P. *See* Woerdeman, M. W., joint authors. Book notice, 334
Regenerative capacity of cardiac muscle. By R. G. Harrison, 365
Research in Holland: Experimental Embryology. By M. W. Woerdeman and Chr. P. Raven. Book notice, 334
Researches on Prenatal Life. By Joseph Barcroft. Book notice, 200
Respiratory displacement of larynx, hyoid bone and tongue. By A. G. Mitchinson and J. M. Yoffey, 118
Romanes, G. J. The prenatal medullation of the sheep's nervous system, 64
Roston, J. B. and Haines, R. Wheeler. Cracking in the metacarpo-phalangeal joint, 165
Ruch, Theodore C. *See* Chang, Hsiang-Tung, joint authors, 140, 150

Sensory fibres in the hypoglossal nerve. By A. A. Tarkhan and I. Abou-el-Naga, 23
Sharman, M. *See* Aitken, J. T., joint authors, 1
Sheep's nervous system, prenatal medullation of. By G. J. Romanes, 64
Sherrington, Charles. The Integrative Action of the Nervous System. Book notice, 334
Siddiqi, M. A. H. The prostate gland of *Herpestes edwardsii edwardsii*, 123

Skin, observations on the elastic tissue of the, with a note on the reticular layer at the junction of the dermis and epidermis. By John C. Dick, 201
Smout, C. F. V. and McDowall, R. J. S. Anatomy and Physiology for Students of Physiotherapy, Occupational Therapy and Gymnastics. Book notice, 334
Spider monkey, organization of the dorsal columns of the spinal cord and their nuclei in the. By Hsiang-Tung Chang and Theodore C. Ruch, 140
Spider monkey, topographical distribution of spinothalamic fibres in the thalamus of the. By Hsiang-Tung Chang and Theodore C. Ruch, 150
Spinal cord, organization of the dorsal columns of the, and their nuclei in the spider monkey. By Hsiang-Tung Chang and Theodore C. Ruch, 140
Spinothalamic fibres, topographical distribution of, in the thalamus of the spider monkey. By Hsiang-Tung Chang and Theodore C. Ruch, 150
Suprarenal cortex, the formation of birefringent crystals in the. By J. M. Yoffey and J. S. Baxter, 335
Synopsis of Surgical Anatomy. By Alexander Lee McGregor. Book notice, 122

Tarkhan, A. A. and Abou-el-Naga, I. Sensory fibres in the hypoglossal nerve, 23
Thalamus of the spider monkey, topographical distribution of spinothalamic fibres in the. By Hsiang-Tung Chang and Theodore C. Ruch, 150
Tongue, larynx and hyoid bone: respiratory displacement of. By A. G. Mitchinson and J. M. Yoffey, 118
Topographical distribution of spinothalamic fibres in the thalamus of the spider monkey. By Hsiang-Tung Chang and Theodore C. Ruch, 150

Uterus of the rat, the distribution of alkaline phosphatase in the pregnant. By J. J. Pritchard, 352

Van Straaten, J. J. *See* Nauta, W. J. H., joint authors, 127
Variations in the distribution of lipoids in the adrenal cortex of the albino rat. By R. G. Harrison and A. J. Cain, 286

Wajda, H. S. *See* Clark, W. E. Le Gros, joint authors, 56
Walls, E. W. The development of the specialized conducting tissue of the human heart, 93
— *See* Foxon, G. E. H., joint authors, 111
Whillis, J. *See* Johnston, T. B., joint editors. Book notice, 121
Woerdeman, M. W. and Chr. P. Raven. Research in Holland: Experimental Embryology. Book notice, 334

Yoffey, J. M. and Baxter, J. S. The formation of birefringent crystals in the suprarenal cortex, 335
Yoffey, J. M. *See* Mitchinson, A. G., joint authors, 118
Young, J. Z. *See* Aitken, J. T., joint authors, 1
